### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims:

Claim 3 line 1 has been changed to: ~~The~~ A luminous body with a prolonged fluorescence lifetime

2. The following is an examiner's statement of reasons for allowance: The combination of Wang and Matsubara do not disclose all the limitations of the claimed invention. More specifically, there is no prior art of record that satisfies the limitations of silicate-germanate or aluminate-gallate doped with europium to improve thermostability according to the empirical formula as claimed. A further search could not uncover relevant art prior to the priority date of 12/20/2002.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
